CEILING TUBE MOUNT

A flexible, reliable overhead tube support designed to accommodate all your radiographic requirements.

Durability with Maximum Flexibility

DEL MEDICAL
SYSTEMS GROUP

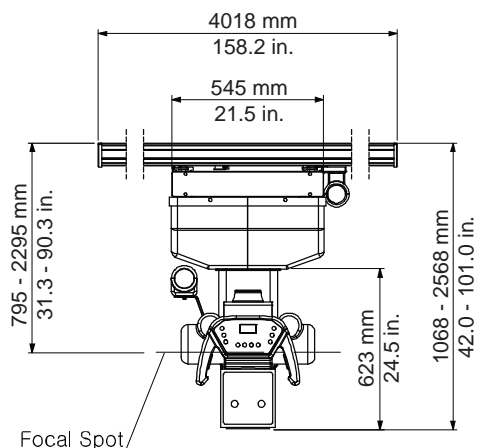

CEILING TUBE MOUNT SUB SYSTEM SPECIFICATIONS

Product Features

- Servo-linked tube support to wall bucky for accurate alignment
- Servo-linked tube support to table for accurate distance
- Dual release and single release buttons for ease in positioning
- Easy to read digital display readout
- Motorized vertical travel minimizing operator fatigue

Product Specifications

- Longitudinal travel range: 130" (3300mm)
- Transverse travel range: 88.5" (2250 mm)
- Vertical travel range: 59" (1500 mm)
- Vertical tube rotation: +/- 360°
- Horizontal tube rotation: -90°, +180°,
detents at -90°, 0, +90°
- All locks: Electromagnetic
- X-ray tube housing mount: 3" (75 mm) or 4" (100 mm)
- Transverse bridge length: 9'10"
- Longitudinal rail length: 13'2"

Environmental Specifications

- Electrical connection: 3 conductor with Protective Earth Ground
- Operating temperature range: 41°F~95°F (5°C~35°C)
- Relative humidity range: 10~75%
- Relative pressure: 700 hPa~1060 hPa

Product Options:

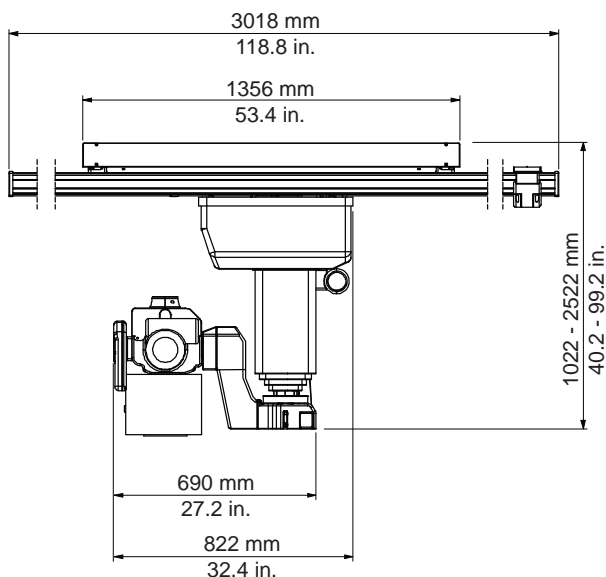

- X-ray tube
- Collimator (manual only)
- HV Cables, 60' standard

Weight

- 780 lbs. (354 kg) with tube & collimator

Power Requirements

- 110/240 Vac.
50/60 Hz, 700 VA

Del Medical is an ISO13485 & ISO9001 Certified Facility.
Complies with CDRH performance standards in effect at time of shipment. Specifications are subject to change without notice.
